

HDO-PADS™

Lake Country Mfg., Inc.

Constructed to Handle the Vigors of Long Stroke Polishers

- **Full Line:** ... A complete line for all your buffing needs from heavy cutting to waxing.
- **Reduced Diameter & Slim Profile:** ... Provides an evenly distributed point of contact for ultimate balance and control.
- **Improved Interface Material:** ... Provides stability on flat panels, while adjusting to the contours of curved panels.
- **Less Foam Movement:** ... Minimizes haze and micro marring.

CONSTRUCTION FEATURES

- **Multi Density:** ... Multi-density, layered foam design construction provides a smooth bold feel while maintaining the integrity of the foam for optimum surface contact.
- **Engineered Bevel & Integrated Interface:** ... The combination of the bevel and interface keeps the adhesion line away from the working surface for safe use in tight areas.

COOLING FEATURES

- **Breathable Interface & Cooling Chamber:** ... Prevents the center of the pad from concaving by allowing unwanted heat to escape during pad rotation.
- **Cool Running:** ... HDO-PADS run 10% cooler on long stroke polishers than comparable pads maximizing pad life and pad durability.
