

# FOAMED WOOL™

BUFFING/POLISHING  
PADS  
from Lake Country Mfg., Inc.

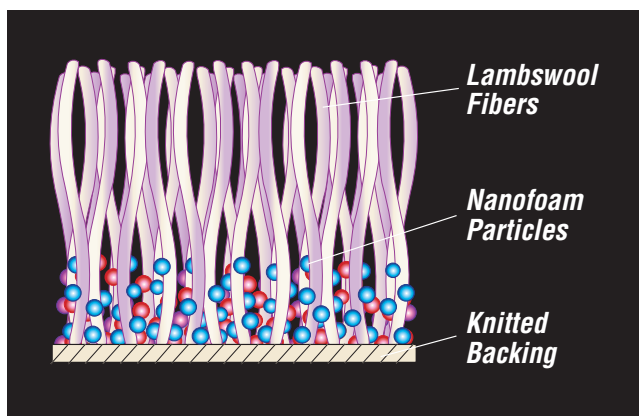

## INCREASED DENSITY

**Ideal for high production  
OEM/Industrial applications!**

- ◆ **ONE-STEP COMPOUNDING** - removes P1500 scratches and finishes to high gloss in one step.
- ◆ **IMPROVED CONSTRUCTION** - higher density material resist "caking" and "matting".
- ◆ **CONSISTENT QUALITY** - manufacturing process assures uniform material ... unlike natural sheepskin which varies in consistency.
- ◆ **APPEARANCE** - distinctive color for easy identification

(Hook & Loop Attachment)

Nanofoam particles encapsulate the base of the lambswool fibers

# FOAMED WOOL™

## FEATURES AND BENEFITS

- ◆ **ADVANCED TECHNOLOGY** - Patented nanofoam process encapsulates the base of the lambswool fibers with microscopic polyfoam particles.
- ◆ **PERFORMANCE** - Cuts like natural sheepskin but finishes like a foam pad. Aggressively removes P1500 grit scratches, leaving a lustrous finish with no hazing by reducing compounding swirls.
- ◆ **DENSE BODY** - Foamed fibers resist caking and matting. Foaming process also creates minute air pockets at the base of the fibers, which improves cushioning and retention of compounds and polishes.
- ◆ **CONSISTENT QUALITY** - Manufacturing process produces a uniform material, resulting in consistent pad performance ... unlike performance reducing variances that can occur with natural sheepskin pads.
- ◆ **MINIMAL LINTING** - Foaming process locks in the lambswool fibers, significantly reducing linting.

PART NO.	DIMENSIONS
58-423	3" x 1"
58-4235	3-1/2" x 1"
58-42425	4-1/4" x 1"
58-425	5" x 1"

Also available in 3/4" pile

PART NO.	DIMENSIONS
58-426	6" x 1"
58-4265*	6-1/2" x 1"
58-427*	7" x 1"
58-4275*	7-1/2" x 1"

\* With center hole

## EASY CARE INSTRUCTIONS

Wash in our patented System 2000™ or System 3000D™ Padwasher or hand wash with warm water and mild soap, then air dry.
